

April 2022

To all our suppliers

## **Re: Revision of the Green Procurement Guidelines**

As we have informed you, the 11.0 version of our Green Procurement Guidelines will come into effect as of April 1, 2022, replacing the previous “Green Procurement Guidelines” Ver. 10.0. The reasons behind the revision included the revision of the statutory regulatory measures concerning the chemical substances in the products, as well as additions and/or changes to the threshold range in the list of the substances our customers have requested us to avoid or control.

Please review the outline of the revisions in the following section.

### **1. Revisions**

#### 1) Green Procurement Guideline

- The description about the handling of the old version of the JDI environment-audit-sheet in item 4-1-2 “Decision criteria” will be deleted.
- The implementation of online audits will be added in item 4-1-3 “Evaluation method.”
- The description about the submission request for the IMDS will be added in item 4-2 “Adoption criteria for materials and other product-related procurements”, 6) “Others.”
- The materials subject to analysis for Beryllium listed in item 6-4-9 “Others” will be changed.

Please refer to the attached file “Green Procurement Guideline” for details of the content modified.

#### 2) Standard of prohibited and controlled substances in product for JDI

“Table 1: Standard of prohibited and controlled substances in product for JDI” annexed to the Green Procurement Guideline will be updated.

- Newly added prohibited substances
  - No. 49 n-Hexane
  - No. 50 9-14C Perfluorocarboxylic acid C9-C14 PFCAs) and their salts and C9-C14 PFCA-related substances
  - No. 51 Decabromodiphenylethane (DBDPE)
  - No. 52 2-(2H-benzotriazol-2-yl)-4,6-ditertpentylphenol (UV-328)
  - No. 53 Prohibited substances in the GADSL
- Prohibited substances whose threshold level are changed

- No. 1 Lead and its compounds
- No. 4 Hexavalent chromium and its compounds
- No. 6 Polybrominated diphenylethers (PBDEs)
- No. 24 Polycyclic aromatic hydrocarbons (PAHs)
- No. 46 Perfluorohexane Sulfonates (PFHxS) and its salts and PFHxS-related substances

- Newly added controlled substances
  - No. 9 Bisphenol Chemicals \*Bisphenol F and S will be changed to Bisphenol Chemicals.
  - No. 16 Perfluorohexanoic acid (PFHxA) and its salts and PFHxA-related substances
  - No. 17 Melamine
  - No. 18 N-Ethyl-2-pyrrolidone

Please refer to our Website “Table 1: Standard of prohibited and controlled substances in product for JDI Ver.10.00” for details.

### 3) Certification of non-use of environment-related substances

The format of the “Certification of non-use of environment-related substances” form, annexed to the Green Procurement Guidelines, has been revised.

#### \*Acceptability of the old format

For cases in which the request for investigation has been made to our jDesc on or before March 31 documents in the old format will be acceptable provided the response is registered by the end of April. Otherwise, please register the response using the new format.

## 2. Website update

The respective texts for the revisions are scheduled to be available online on our website from **April, 2022**.
