Foreign Exchange Gain

JDI recorded an FX gain of JPY 1,364 million as non-operating income in FY23/3 Q2 (July 1, 2022 to September 30, 2022). The FX gain was the result of differences in the financial value of revenues and expenses between the time of their recording and settlement, as well as the impact of the mark-to-market of JDI's foreign currency-denominated financial assets and liabilities applying the FX rate on the last day of the accounting period.

The FX gain has been reflected in JDI's FY23/3 H1 earnings announcement today and in "Difference Between FY23/3 H1 Earnings Forecast and Actual Results & Downward Revision of Full-Year Earnings Forecast".
